Stairlift & Mobility Specialists

*Award-Winning, Local Family Business for 20+ Years*

## General Mobility Catalogue

ISSUE 004

## Onwards & Upwards for Stairlift Solutions!

Stairlift Solutions originally started from working out of a garage over 20 years ago and we have just recently expanded into Northern Ireland's biggest stairlift and mobility showroom in Newtownards, Co. Down.

Our new location was recently unveiled by the Mayor of Ards & North Down Karen Douglas, offering life changing products to those with mobility issues, from stairlifts to scooters, riser recliners to wheelchairs and much more.

Stairlift Solutions began life as a father and son team founded by the late Ken Wallace and now our multi award-winning company is led by Ken's son, Managing Director Michael.

He said the company has two main strands to its success. *"Number one is that we have fantastic staff, it wouldn't be possible to do what we do without them, which is epitomised by our General Manager James Dowling. Number two is our focus on after-sales care. That's big for us, we need to make sure our customers are happy with the products they have and ensure they know they can come to us if there are any issues."*

Stairlift Solutions now provide a whole range of other mobility products which are superbly showcased in our huge new showroom, along with our range of stairlifts which are still at the core of the company.

Prices for our straight and curved stairlifts are very competitive starting from as little as £950, and installation can be done very quickly for new or reconditioned models with a rental service also available.

The products we sell enable people with mobility issues the chance to adapt their own homes to help them maintain independence and a better quality of life, as Michael explains:

*"The stairlifts allow people to stay in their own homes, and out of nursing homes and the pandemic showed us the importance of that. Plus, with a range of scooters, riser recliners, wheelchairs, rollators and more, it allows people to regain the freedom of their homes and beyond and live their lives more comfortably."*

Michael continues saying that customer service is paramount, carrying on the ethos started by his father:

*"The stairlifts come with full warranty and servicing plans and we have a 24/7/365 aftercare service for our 5000+ customers. We also have a unique buy back service, which even helps with sustainability, recycling and reusing stairlifts that are no longer needed. Plus, we always provide FREE delivery, assembly and demonstration for all our mobility products right across N.I., so we always strive to go that extra mile for our customers."*

Stairlift Solutions are also Which Trusted Traders, members of both the FSB and BHTA, plus proud supporters of both Action Cancer and Marie Curie. We've recently teamed up with Frank Mitchell too so keep an eye out for us on the TV!

***"If you look at our website more than 500 people have left testimonials praising their experience with Stairlift Solutions and each one of them is very gratifying to read. To us, each one of them is proof that we're doing our jobs well."***

*"Highly recommended! It only took a couple of days from the initial enquiry until the stairlift was fitted. The team could not have been more helpful in what was a stressful time."*

Gina Annette - Ballyclare

*"Friendly knowledgeable staff who are not pushy! Very professional from the first contact and a pleasure to work with."*

Vera Magee - Craigavon

## Brooks 130 Slimline Stairlift

### Northern Ireland's No. 1 Stairlift Suppliers

Brooks Stairlifts are highly reliable with very little maintenance required. They are battery operated, which automatically charge at the top and bottom of the stairs. The battery power means they are very smooth and extremely quiet, and even run in the event of a power cut.

At Stairlift Solutions, all our new Brooks Slimline Stairlifts come with a two-year warranty as standard, with an extended warranty available after this term.

- Slimline design
- Runs on rechargeable batteries
- Multiple safety features
- Manual or powered swivel seat
- Paddle and/or remote control
- Folds up nice and neatly
- Fits to the stairs, not the wall

# Brooks 180 Curved Stairlift

Our Brooks 180 Curved Stairlift incorporates many of the characteristics of Brooks' best selling straight stairlifts. The Brooks 180 is a market-leading stairlift, offering a wide range of options and accessories and is a major step forward in both reliability and comfort. Brooks' modular rail concept is the latest in technology and has been created to accommodate almost every curved staircase.

The Brooks 180 Stairlift delivers a smooth, comfortable ride along a slimline rail on either the inside or outside bend of your staircase. The well-engineered, slimline design provides plenty of access even on the narrowest of stairs and has been manufactured so that it blends subtly into your home.

The Brooks 180 is designed for comfort and ease of use and is operated with a rocker switch on the arm. Remote controls are also provided for multiple users or to allow you to call the stairlift from anywhere.

## HomeGlide Stairlifts

### HomeGlide

The HomeGlide Stairlift for straight staircases delivers guaranteed reliability, robust quality and a swift installation without compromising on safety and all at a very competitive price, from £1850 for a brand new stairlift installed.

Featuring all the basic features and with compact dimensions, the HomeGlide Stairlift is easy to use as it glides quietly and smoothly along the rail.

An elegant and attractive stairlift, the HomeGlide has the simplicity that allows it to be installed directly onto a staircase cleanly and discreetly, with reliability ensured through high quality German engineering from ThyssenKrupp.

### HomeGlide Extra

The HomeGlide Extra Stairlift provides a premium stairlift for those who want the ultimate in options and luxury, complete with a 3 year warranty as standard.

Along with its stylish, modern design, it has an automatic powered swivel seat, the footplate linked to the seat for ease of folding up and many other features all as standard.

### Prices and Other Services

Our prices vary as we offer many different options, from new to reconditioned, rental to outdoor and these can include additional extra features depending on what is required. As our prices start from as little as £950 for reconditioned stairlifts, we think our prices are as competitive, if not more so, than any other company available and as we keep a stock of straight stairlifts here in Northern Ireland we can even provide a next day installation if needed!

We carry out the survey, the installation and fully maintain the stairlifts with extended warranty also available for peace of mind. Our after sales care is second to none and the most important thing to us is to look after our customers, so you can be sure you're in good hands. You can read what many of our satisfied customers have to say on our testimonials page on our website.

To arrange a FREE, no obligation survey of your staircase, or if you have any other questions please do not hesitate to get in touch with one of our friendly team today! All our details can be found on the reverse of this brochure.

## Flow X Stairlift

The Flow X Curved Stairlift can be truly considered one of the world's leading stairlifts. Made and designed by ThyssenKrupp using the very latest technology, you get all you would expect from high quality German engineering. The market leading, single rail Flow X can be installed on nearly any type of staircase.

The automatic swivel and levelling technology (ASL) allows it to be fitted on staircases as narrow as 610mm and from -70 to +70 degrees. This feature, unique to the Flow X, enables it to turn while in motion, making it one of the smartest and most adaptable stairlifts in the world.

With a choice of seat colours, fabrics and even leather, plus a choice of rail colours too, the Flow X can be fully customised to suit your style and décor, plus there is a 5 year warranty with 5 free services as standard.

## Bespoke Synergy

The Bespoke Synergy straight stairlift, simple in its operation yet detailed in design.

As one of the world's slimmest stairlifts and rails, it has a compact design making it look less obtrusive with minimum impact to your home. With a host of hidden features as standard and a choice of seat colours, it allows you to reclaim your independence at home.

# Bespoke Infinity

For fully independent living choose the Bespoke Infinity Curved Stairlift.

Your staircase should never be your biggest obstacle. Negotiating the stairs shouldn't stop you from doing the things you want to do. By choosing the Infinity Curved Stairlift, you can continue enjoying your home without worry.

With minimum assistance from others, the Infinity stairlift will keep you in good hands.

With British quality and comfort assured, a 2 year warranty comes as standard for added peace of mind.

The slimline twin-tube rail also leaves plenty of room on the staircase for others to use.

# MOBILITY SCOOTERS

Whether you're in town or the country, you can always rely on our mobility scooters to get you where you want to go. Easy to drive, inexpensive to run and environmentally friendly – our extensive scooter range covers everything from get-about to go-anywhere mobility scooters, all with the peace of mind of our local after sales care. Plus we provide a 2 year warranty, a free delivery, assembly and demonstration on all our mobility scooters.

## Choosing the right mobility scooter for you

When buying your mobility scooter, you should always keep in mind where you intend to use it. If it's around shopping centres, high streets or if you need your mobility scooter to be portable, then a Class 2 mobility scooter that can be broken down into easy-to-manage parts with a speed of around 4 mph may be suitable.

Alternatively, if you prefer your mobility scooter to be able to cope with longer journeys without the need of secondary transport, then a Class 3 mobility scooter with 6-8mph with lights and indicators would be more suitable.

# Invacare Scooters

## Leo

**Safe, solid, secure: The Invacare Leo is a scooter designed for all those that value their independence and wish to get out and about unaided.**

Safety is a key feature of the Leo, but this does not detract from its stylish and sporty looks. Leo offers users the freedom and confidence to enjoy their essential daily outings and leisure excursions. With exactly high standards of design and safety engineering, the Leo undoubtedly sets a new market standard. Comes in a choice of colours and many additional extras also available.

## Orion

**Comfort, safety and reliability with added performance.**

With enhanced battery performance, superior suspension and large 12" wheels, the all new Orion Pro is ideal for individuals who need that extra performance. The new Orion Pro blends this extra performance with all of our existing comfort, safety and reliability features, plus a choice of colours, to make it the ideal choice for those who demand more from their mobility scooter.

Comes in Metro and Pro models in a choice of colours with many additional extras also available.

## Comet

**Power and performance in a premium package.**

Whether you're popping to the local shops, taking longer trips into town, or looking to go further afield, the all new Comet Pro will take you the distance in comfort, safety and style. With its exceptional driving features and modern aesthetics, plus a choice of colours, the Comet Pro offers power and performance in a premium mobility scooter package.

Comes in Pro and Ultra models in a choice of colours with many additional extras also available.

## Rascal Mobility Scooters

### Vippi

Trendy, transportable and fuss free, the Vippi is lightweight, versatile and compact. Designed and engineered to make every day easy and spontaneous, whether you are off on an adventure or running an essential errand.

It dismantles in a flash with an easy take-apart mechanism deconstructing into 5 parts for storage and transportation with the single heaviest part weighing only 15.4kgs.

### Velumili

Our lightest Rascal ever at just 28.8kg with a **lifetime guarantee** on the British Made Lithium Ferro-Phosphate Battery Pack for total peace of mind. This small but mighty 4mph with a range of around 11 miles is great value for money. Brimming with features & choice of 5 vibrant colours, the slimline, aluminium, high quality frame is just 18.6 inches wide. The front section weighs just 10.2kg and this easily transportable, compact scooter offers an exceptional 1150mm turning radius & manoeuvrability.

### Veo Sport SR

It's all about the drive. The Rascal Veo Sport SR is fully loaded with features in two striking colours. A modern, sporty design with class leading all-round suspension. With 22Ah batteries, a superb capacity for a scooter of its size, affording a range of up to 15 miles.

The Veo Sport SR's easy and robust take apart mechanism allows you to store or drive away with it in the boot of your car, so it is very practical yet with its distinctive looks, exclusive all-round suspension plus LED front light, this is the travel scooter with the edge. Not only that but there is also a lightweight 12Ah lithium battery option with a **lifetime guarantee** on it too!

### Vista / Vista DX

Introducing the exclusive Rascal Vista and Vista DX mid-size pavement scooters. Benefiting from the quick release feature, it dismantles into a few easy-to-lift sections for transporting in your car. The compact and slim-line style offers plenty of legroom yet it is still extremely robust with generous turning manoeuvrability, making it ideal for everyday use.

The Vista DX's increased 50Ah battery size offers an impressive range of up to 35 miles and when taking apart, the split battery pack is also a real advantage. It comes with front and rear LED lights, all round suspension and is available with solid puncture proof or pneumatic tyres - the choice is yours!

## Vecta Sport

The Vecta Sport is an ultra-modern, compact yet powerful 8 mph road scooter. This scooter uses the best of modern design in a very compact overall package with a host of new features that combine to make a scooter that not only looks great but performs even better. With exceptional legroom, an adjustable tiller and super comfortable seat it is a scooter designed for all users.

With a 25 stone weight carrying capacity, revolutionary 'RunOn' run flat pneumatic tyres, the unique Max Grip Limited Slip Differential gearbox and the new technology high power high torque 600 Watt motor this really is THE scooter for the 21st Century.

## Pioneer

The Rascal Pioneer is a proven performer with a fantastic reliability and durability record. With full coil suspension and a 35 mile range its powerful motor makes it an ideal scooter for the more challenging environments. It features a delta-bar tiller with adjustment, a sliding swivel seat with headrest and padded arms as well as showerproof switches and a large basket making the Pioneer one of the most popular scooters on the market.

## Vortex

The Vortex has been designed as the latest unique and dynamic scooter with a host of features to take your mobility to the next level. With exceptional legroom, an adjustable tiller and super comfortable seat it is an 8 mph scooter designed for all users.

With a 28 stone weight carrying capacity, run flat pneumatic tyres, Max Grip limited slip differential gearbox & a high power high torque 900 Watt motor, this is a scooter with the wow-factor. The Vortex's size makes it a great mode of transport if you are looking to replace the need for a car due to reduced mobility or favour shorter electric powered journeys.

## Vision

The Rascal Vision offers a world of difference and combines a great modern look with uncompromising intelligent design and great suspension, featuring MaxGrip Limited Slip Differential Gearbox.

Form and function come together to create something very special, with a well-padded seat providing good lumbar support and a charging point on its tiller, your days for adventure couldn't look better

## Sterling Scooters

### Sapphire 2

**Secure handling but with a portable base, take your next adventure with the Sapphire 2 mobility scooter.**

Designed to give exceptional manoeuvrability both indoors and out, the Sapphire 2 is a 4mph portable mobility scooter that separates into 4 easy to manage parts. Dual handles fitted to the batteries and rear drive unit make lifting and handling your mobility scooter safer and more manageable, whilst powerful LED lights on the front and rear ensure you're always seen on your travels.

### S400

**The compact and comfortable mobility scooter for socialising around town.**

Looking for a compact, 4mph mobility scooter with big features? Then look no further than the S400. Highly manoeuvrable around shopping centres and equally at home on busy high streets, the all-round suspension as standard ensures that those bumpy drop kerbs when crossing the road are a thing of the past. Plus with the bright, energy efficient LED's lighting your way, you're just as visible on those late-night shopping trips as you are during the day.

### S425

**The compact, 8mph road-ready mobility scooter.**

Taking the bright, front/rear LED lights, all-round suspension and combining it with a maximum speed of 8mph, the S425 is fully legal for road use as well as on pavements. As you'll be travelling on roads, the increased wheel height (30cm) will help to tackle those usual outdoor obstacles with ease.

## S700

### **Your perfect companion for outdoor adventures.**

The S700 is the leader of the pack with superior outdoor performance features. Tackle greater gradients of 10 degrees, higher kerbs of up to 100mm and greater obstacles with larger 33cm tyres – it's truly a mobility scooter designed for those who just can't sit still. There's no need to worry about distance either as the large 75Ah battery size will power an extended range of up to 55km and a lively top speed of 8mph. You're also assured of a smooth, rewarding drive each and every time with the advanced 4-wheel suspension (as standard) supporting a maximum user weight of up to 160kg. Plus with a black metallic colour finish, the S700 will always get the attention it deserves. tiller and delta handle bar, means a comfortable riding position can be always be found.

## Elite 2 XS

### **Designed for reliability and safety whilst on the road.**

The Sterling Elite<sup>2</sup> XS mobility scooter is the successor to the outstanding Elite XS. Reliability and safety are in the genes of the new Sterling Elite<sup>2</sup> XS. With the intuitive ergonomic wig-wag control, the Sterling Elite<sup>2</sup> XS is the new standard of mobility scooter drive controls. Information of your journey - trip distance, total distance and speed reading is easily displayed on the backlit LCD control unit. The Elite2 XS is designed for comfort with the unique adjustable rear suspension. This combined with an adjustable seat, gas strut adjustable tiller and delta handle bar, means a comfortable riding position can always be found.

## Elite 2 Plus

### **Comfort, pleasure and safety on the road.**

The Sterling Elite<sup>2</sup> Plus mobility scooter is the flagship of the Sterling Elite2 series. A full front and rear suspension scooter, the Sterling Elite<sup>2</sup> Plus also offers 14" wheels giving a comfortable ride in everyday terrain. The clear and easy to use large LCD display with soft-touch buttons gives control over the indoor/outdoor driving profiles, LED lights, turn signals and also stores trip/total distance travelled. The driving handlebar is angle adjustable and is also height adjustable using a simple adjustment in the steering column. Together with the height adjustable, 360° swivel seat, seat slider and adjustable armrests, a comfortable riding position for all users can be found. Optional controls include a footcontrol and twist grip 'motorbike' style bar.

## Trophy

### **The ultimate mobility scooter - enjoy unparalleled driving comfort and performance.**

Is comfort absolutely essential for you? Then the Trophy is your choice mobility scooter. This comfort scooter couples a unique suspension system with optimal ergonomics - ensuring the ultimate in driving comfort. With a choice of 5 stylish metallic colours, in 3 wheel or 4 wheel, you can easily personalize your Trophy. Whatever your journey, this top-quality electric scooter will easily take you there in exclusive comfort and total safety.

## SupaScoota

Portable & compact mobility scooters, designed for comfort and manoeuvrability around town and when out shopping. These lightweight scooters can help make your everyday journeys a real pleasure with a range of models designed to accommodate your every need. Suitable for travel by car, train, plane and on-board cruise ships.

### Sprint

This is the perfect all-rounder. Taking up to 20 stone with a longer wheelbase for added leg room and a suspension seat makes the SupaScoota Sprint an ideal machine for those challenging conditions.

### Sport / Sport XL

The SupaScoota Sport challenges the traditional concept of scooter design. The dual motor drive can easily handle off-pavement use and navigate steeper inclines, while the Sport XL gives you that little bit more, making long distance travel enjoyable once more.

### Spartan

The SupaScoota Spartan offers a level of comfort that is equal to many road class scooters. It is ideal for the larger person, as it has a load capacity of 32 stone but keeps the amazing manoeuvrability and portability of the SupaScoota range.

## MicroLite & SupaLite

Weighing less than 18kg and with a lithium battery as standard, the 3-wheel MicroLite is the lightest mobility scooter in the world and its bigger brother the SupaLite isn't far behind it! A lightweight frame, tight turning circle, and single motor make these the ideal portable mobility scooter, while the SupaLite 4 offers a 4-wheel alternative.

## i3 Folding Scooter

Made from lightweight, yet robust aluminium, this compact scooter is perfect for use on public transport including car, bus, aeroplane, train, and cruise ship.

A single lithium battery will provide a travel distance of up to 6 miles, with the option of a second battery, which can be used to double the distance and you can change the batteries with the flick of a switch.

## Di Blasi Self Folding Scooter

With a lithium battery as standard, the fully folding Di Blasi mobility scooter is the only one on the market that opens and closes itself automatically at the touch of a button. Once folded, its transportation wheels and handle mean it can be easily pulled along, like a small suitcase.

# RISER RECLINER CHAIRS

## Cosi Chairs

### Hamble

The Hamble Cosi Chair is a very easy to use single-motor chair with a modern over padding wing arm construction, plus it's new and improved supportive foam seat as standard means you can relax surrounded by comfort.

It has a zipped, Waterfall Back design and offers a smooth lift and recline action helping you reach your preferred position effortlessly. The Hamble is available in one size with Lille Cedar and Lille Charcoal fabric colour options.

### Heddon

The Heddon Cosi Chair is a very easy to use dual-motor chair with modern over padding wing arm construction, plus it's new and improved supportive foam seat as standard means you can relax surrounded by comfort.

It has a zipped, Waterfall Back design and features a separate back motor to allow more flexibility to adjust the back position whilst offering a smooth lift and recline. The Heddon is available in one size with Lille Cedar and Lille Charcoal fabric colour options.

### Medina

*(Available in small, medium or large. Available in waterfall, button or lateral back types)*

The Medina Cosi Chair is a superbly comfortable independent dual-motor chair with pocket sprung chaise seating and a soft fibre filled backrest. The independent control of backrest and footrest functions operated through the simple handset enables any individual to find their desired seating or reclined position for maximum comfort.

# RISER RECLINER CHAIRS

## Kensey

*(Available in small, medium or large. Available in waterfall, button or lateral back types)*

The Kensey is our UK Premium Tilt-in-Space (TIS) single-motor Cosi Chair providing a smooth rise and recline movement. The choice of 4 sumptuous Back designs deliver support to the user's back, shoulders and neck areas throughout travel. Choose from Button, Lateral, Mini Lateral or Waterfall Back options.

## Jubilee

*(Available in small, medium or large. Available in waterfall, button or lateral back types)*

The Jubilee is our UK Premium Tilt-in-Space (TIS) dual-motor Cosi Chair designed to maximise support throughout motion with a range of stylish back designs and upholstery options to provide exceptional postural seating positions to suit all individuals. The Jubilee is available in Waterfall or Lateral Back from stock with other back options and fabrics available made to order.

## Ambassador

*(Available in small, medium or large)*

The Ambassador Cosi Chair is different from any other riser reclining chair with its superbly supportive seating positioning system and deep waterfall cushions providing the ultimate in seating comfort. Its unique design, proportions and classic lines enable almost any individual to achieve maximum comfort, whether seated, rising or reclining.

## Iconic

*(Available in Small, Medium or Large in Waterfall or Lateral back.)*

The Iconic is a Premium Riser Recliner designed by CosiChair which has a unique Tilt-in-Space (TIS) Quad-Motor function featuring the Zero Gravity position which evenly distributes the force & stress across the body, giving total support & comfort from head to toe throughout movement offering greater natural postural relaxation. Benefit from the powered lower lumbar support & true extending footrest extension plus enjoy the advantage of the fully adjustable powered headrest which offers personalised head & neck support to watch TV, read a book or sit up to have a drink.

## Banwell

The Banwell is a powerful and significant Riser Recliner chair for the heavier or wider customer that provides the upmost reassurance and comfort. Available in a 40 stone chair with 25 stone leg lift or a 35 stone model with Tilt-in-space for the ultimate comfort and positioning.

# ROLLATORS

Our range of REHASENSE Rollators gives you full peace of mind and independence both inside and outside the house. Choose from a wide range of models with various options and extras, meaning you can pick the perfect rollator to suit your exact needs.

## Stylus

The STYLUS is a lightweight rollator made from aluminium. The base line range of rollators offer a cost effective rollator solution. These products are perfect for someone who may be looking to purchase entry level mobility aids.

## Server

The SERVER is the classic aluminium lightweight rollator. Thanks to the unique profile the rollator can be easily kept clean and maintained. The ergonomic handle grips under the "Click & Safe" safety catch allow secure lifting, carrying and transporting of the rollator.

Also available in CF, HD, CF HD, XC and W models, in Medium or Large in a variety of colours.

## Space

The SPACE LX rollator combines intuitive design, smooth lines and high strength alloy materials. Maximum user weight of 150 kg. The lightweight design makes it easy to walk, lift and turn – indoors and outside. Backrest and crutch holder included, plus a 7 year guarantee!

Also available in CF and Pixel models, in Medium or Large in a variety of colours.

CF – Carbon Fibre  
HD – Heavy Duty  
XC – Larger Outdoor  
W – Arthritic  
Pixel – Smaller Indoor

The COOPERS range of rollators help you to keep mobile and independent both inside and outside the home. Whether it's 3 or 4 wheel, our robust range of rollators are easy to use, fully adjustable and offer great value to customers needing extra support when moving around

## Coopers Three Wheel Walker with Bag

**An adjustable height three wheel walker to assist those who require extra support indoors or outdoors.**

- Deluxe padded seat and curved backrest for enhanced support
- Features easy to use loop brakes
- Folds for storage
- Comes complete with seat and basket

## Coopers Heavy Duty Rolling Walker

**Wider than our standard rolling walkers, this heavy duty rolling walker offers additional support and comfort for the larger user.**

- Height adjustable
- Deluxe padded seat and backrest
- Features easy to use loop brakes
- Folds for storage
- Comes complete with seat and basket
- Maximum user weight: 180kg (28 stone)

# WHEELCHAIRS

Reliable, high quality standard manual wheelchairs that accommodate a variety of needs. The quality of your life counts, and so does the quality of your manual wheelchair. The BREEZY family of standard manual wheelchairs provide users, caregivers and suppliers peace of mind in terms of quality, dependability and ease of operation. Featuring steel or aluminium folding wheelchair frames, our manual wheelchair range is thoroughly tested to ensure a stable ride, making BREEZY a name you can trust.

## **Moonlite Portable Wheelchair**

The standard portable wheelchair that's so compact it can be stored nearly anywhere! The Breezy Moonlite is the only standard portable wheelchair in its class to have passed crash testing. Going through stringent quality tests to make sure you have one of the safest products on the market that will go the distance.

## **BasiX<sup>2</sup> Folding Wheelchair**

The economical and easy to re-use standard manual wheelchair. The lightweight BasiX<sup>2</sup> manual wheelchair represents improved adjustability combined with a modern, clean look. Improvements include greater seat depth adjustment (41 - 46cm), a tension adjustable backrest which is extendable from 41 - 46cm and a more robust, rigid castor attachment. Highly efficient and easy to use - the Breezy BasiX<sup>2</sup> is the ideal standard lightweight folding wheelchair for fleet management.

OTHER  
WHEELCHAIRS  
ALSO  
AVAILABLE!

# Invacare Alu Lite

The Invacare Alu Lite is the basic-entry level wheelchair in the Invacare manual range. The lightweight aluminium construction of this transit wheelchair, makes it easy to manoeuvre even for an elderly carer, as well as providing a wheelchair that is easy to fold and transport.

## Pushing? No problem!

The overall manoeuvrability of a wheelchair is crucial - which is why the Alu Lite is designed to be very easy to push and manoeuvre, both indoors and outdoors. Due to the smaller overall dimensions and general compactness of this model, getting around in tight spaces is never a problem.

## Easy to transport and store

Being lightweight (aluminium chassis), compact and with a foldable backrest, the Invacare Alu Lite is very easy to handle, transport and store. Simply remove the footrests, fold the backrest and chassis and store away.

# Rehasense Icon 35

Relaxed excursions or travel by car, train, and plane despite limited mobility? Yes, it is possible! The ICON 35 transport wheelchair series is light and compact. For transport, the wheelchair can be easily folded and stored. ICON 35 is a reliable companion for everyday situation and when travelling; both for the user and the accompanying person.

ICON 35 is available in two versions: Lx (luxury version) and Bx (basic version) starting at a weight of only 8.2 kg. Both versions can carry loads of up to 125 kg. The ICON 35 models offer an ergonomic seat and back angle, which allows for an excellent sitting position. ICON 35 Lx is also equipped with a high-quality ergonomic seat and back cushion as well as adjustable armrests for more support and pressure relief.

## Portable Powered Wheelchairs

### Rascal Rio

The Rascal Rio is a modern & stylish 4mph compact powerchair ideal for indoor and outdoor use. The super lightweight portable powerchair easily dismantles making it the perfect choice for transportation and storage in small spaces. Getting the seat position right for you is simple with fully adjustable armrests, seat height and joystick. The high strength base makes the Rio a sturdy option for anyone looking for a durable, compact powerchair.

### Rascal Razoo

The Rascal Razoo is a slim and sleek compact powerchair ready to assist and enhance your independence. The compact chassis makes this one of the most petite powerchairs on the market, with quick release battery pack and easy to dismantle components, storage and travel have never been easier. The Rear-wheel Drive powerchair offers superb traction and outstanding manoeuvrability with a desirable turning circle of just 97cm.

### Rascal Rythm

The Rascal Rhythm with Seat Lift (SL) offers graceful simplicity to the user including the flexibility of dual-directional drive with a rotating seat giving you the option of Front-Wheel Drive for superb manoeuvrability indoors or Rear-Wheel Drive for extra traction outdoors. Experience a refined drive with smooth acceleration and turning as the Rhythm SL moves in harmony with you. Well defined driving positions, a swing-away joystick and a fully adjustable seat and headrest combine for proven all-day comfort along with a 5 inch column seat lift.

### SupaChair

Comes in 4 different models: Mini, Safari, Sport and Combi.

These powered chairs offer unrivalled manoeuvrability in-and-around your home with a lightweight and compact design which can be assembled or disassembled in a matter of seconds. The responsive joystick control also provides you with 360° turning capabilities and is very easy to learn.

### Eazi Chair Ultra

Equipped with two powerful 250W motors, a large frame, wheels, and a long footrest for extra room. Using a lightweight aluminium alloy frame and 2 lithium batteries help to keep the weight of the chair to a minimum, while still being able to accommodate up to 28 stone (180 kg).

# WALKING FRAMES & RAMPS

## Walking Frames

Our strong yet lightweight walking frames are height adjustable and ideal for those who need support when walking. Made from high tensile aluminium, they are designed primarily for indoor use. Specially profiled hand grips ensure your safety and comfort. They are available in three sizes, with or without wheels to ensure your walking frame is the perfect solution to your needs.

Ultra narrow walking frames are also available for those that only need a little support when walking or where manoeuvrability in smaller spaces is a concern.

Our folding walking frames don't use buttons, catches or other tricky mechanisms, but fold safely and easily to a small enough size to fit comfortably into the smallest car or storage space.

Our extra heavy duty walking frames are still stylish but the durable components support an active and productive lifestyle for anyone weighing up to 227kg or 35 stone.

## Ramps

We supply portable disabled access ramps which are designed for every day ease-of-use and to suit most budgets.

Manufactured from lightweight anodized aluminium, carbon fibre, plastic or rubber we have assembled a range that provides maximum safety and working load with minimum weight/handling whilst not compromising on quality.

Whether it be for entry, internal or exit access we can provide the necessary choice or combination of ramps to make life more accessible, provide the necessary freedom of movement and choice or assist compliance with Disability Discrimination legislation.

Our most popular products include:

- Wedge and threshold ramps
- Kerb and step ramps
- Medium to long folding ramps

# BATHROOM MOBILITY

We have recently teamed up with EA Mobility who specialise in bathroom adaptation for disabled customers or those with mobility issues.

As fellow Which Trusted Traders, EA Mobility have a track record of improving the lives of disabled or vulnerable people and promoting independent living right across the UK. They are highly trained in working in premises of disabled or vulnerable individuals and the resident's comfort, safety and security is their first and foremost concern.

With a range of various walk-in showers, walk-in baths, full wet rooms, specialist toilets and more, EA Mobility will provide a safe and comfortable bathroom experience with both short and long term future in mind. Their mission is to have the work started and completed within a matter of weeks rather than months while keeping disruption to a minimum.

For more information or to arrange a FREE quote, you can contact them directly on – **0800 955 0174**.

**You can also visit our showroom to see a selection of their demo products on display.**

Mobility and walking aids to make everyday activities more convenient. The COOPERS range of mobility aids and walking aids help you to keep mobile and independent both inside and outside the home.

Our range of mobility aids includes:

**Crutches** – strong, lightweight and usually double adjustable, our crutches were developed with the help of the Bath Institute of Mechanical Engineering.

**Walking sticks** – we stock a wide range of strong, lightweight, yet stable sticks, made from materials as diverse as aluminium and chestnut. Whether you are male or female and prefer a crutch or crook style handle, we will have in stock or be able to order the ideal walking stick for you.

**Folding walking sticks** – our high quality, height adjustable folding walking sticks conveniently fold away into a plastic wallet to slip into a bag, briefcase etc

**Perching stools** - adjustable height stools, with a sloping seat that is designed to allow you to sit at a comfortable height in the kitchen, bathroom and shower, allowing you to rest whilst undertaking household and personal care activities.

**Tetrapods and tripods** - Helping to increase stability and balance whilst walking and standing, tetrapods and tripods provide additional stability compared to a normal walking stick.

**Bathroom Aids** - Choose from a selection of general bathroom aids including lifts, steps and seats for the bath, stools and chairs for the shower, bath boards, commodes and more!

*"Absolutely fantastic company! Nothing is too much! They live up to all your expectations and surpass them. Would definitely recommend this firm to anyone!"*

Barbara Vernon - Bangor
